#### HER PAPA.

My papa's all dressed up today. He never looked so fine, I thought when I first looked at him, My papa wasn't mine.

He's got a beautiful new suit--The old one was so old-It's blue, with buttons, oh, so bright, I guess they must be gold.

And papa's sort of glad and sort O' sad-I wonder why? And every time she looks at him It makes my mamma cry.

Who's. Uncle Sam? My papa says That he belongs to him; But papa's joking, 'cause he knows My uncle's name is Jun.

My papa just belongs to me And mamma. And I guess The folks are blind who cannot see His buttons marked U.S.

U. S. spells us. He's ours-and yet My mamma can't help cry, And papa tries to smile at me, And can't-I wonder why. -Mary N. Bradford in The Advocate.

#### Beauty's Influence on Children.

A teacher in Chicago fitted up a little hallway as a "beauty corner" for her pupils. It had a good, though small, stained glass window, a divan covered with an eastern rug. Graun carbon protographs of a few fine paintings and a few other artistic triffes. The children rejoiced in it greatly, and one day she asked there what they would keep, if they could have one thing left of the corner. The decision was almost unanimous for the stained glass window. "What next?" she asked, and they thought they would like to keep the beautiful drapery on the divan. They expressed the love of color that is instinctive in humanity. A little Italian, who had been almost unmanageable, changed greatly in a short time, and the teacher asked him how he had become such a good boy. He pointed to a picture of the Sisting Madonna, saying, "How can a feller do bad things when she's lookin' at him?"-From Primary Education
