## NOT AUTHORIZED BY STRIKE LEADERS

Conflicting Claims Made by the Mill Managers and the Strikers-Contributions Pour into Amalgamated Headquarters-Meeting of Authracite Miners-Labor News.

Pittsburg, Aug. 27.-While representatives of the National Civic federa tion are working zealously for peace between the steel workers and the United States Steel corporation, Pres ident Shaffer of the Amaigamated As sociation declares that his association has given no authority to any one to

make a settlement, and that any effort made in that direction is being dona by outsiders on their own responsibil ity. He announced that so far as the officials of the organization are concerned they are satisfied that the attempts of the officials of the trust to operate the plants in Pittsburg have been futile, and that while there is apparently a lot of men at work and machinery is in operation, practically no product is being turned out.

Officials of plants here started dering the past week claim they made gains in all of them, more men have come to work and that the output is

in every case increased. The Painter plant of the hoop combine started two additional milis and the officials say that before the end of the week these mills will be working double turn. The Star mills are being operated by nonunion tin workers and two double mills are turning out satisfactory black sheets. The Lindsay & Mc-Cutcheon mills in Alleghenv have two

mills running, and it is expected they will be put on double turn this week. The Clark mills in Lawrenceville are operated in full for a single turn, but plied to the insurance department for the officials say every one of the six the appointment of a receiver to take mills will be on double turn before charge of its affairs The association the week ends. Officials of the Upper was incorporated Aug. 31, 1900, and it and Lower Union mills of the Carneis owing to lack of interest in the af- gie company claimed there was no diffairs that a voluntary proposal to re- ficulty in operating their mills. They denied that the refusal of some of their men to return to work had affected the plants in any way. To ali outward appearances the Lower mills were running as usual, though the company has issued strict injunctions against entrance to mills or offices by any one not employed there.

At Amalgamated headquarters there was little of interest transpiring. The

mail for the officials was heavy and Secretary Williams received a num ber of checks representing contribu tions from the Amalgamated lodges in at Cadron creek. While he was water- | independent mills for the strike fund. Trustee John Pierce and Vice Presidept William Gibson of the association made a tour of the plants sup-

posed to be operating and reported there was no truth in the report that so much was being accomplished by the plants. The pickets about the Star mills claim to have secured 19 desertions, all told, from the plant,

since men were taken there. It was also claimed that of the total number in the mill nearly a fifth are made up of managers and foremen of other plants. Regarding the Painter mill, it was said that the strikers were keeping away from the mills entirely and paid no attention to the reports of the new men secured. Many of the
