Beware of the Physic You Take!

A physic often does more harm than good. It is not so much the physic, though, as it is the class of physic you take.

Most preparations sold as laxatives and cathartics are dangerous. They do accomplish what they are advertised to do-move the bowels-but they entirely upset the stomach, and often produce complications. These preparations in the form of tablets and pills,

usually gripe, cause nausea, and once you begin taking them a dangerous "physic habit" is formed. The bowels soon become unable to perform their pills functions without the unnatural aid of the "tablet," just like some people find it impossible to sleep without taking "sleeping powders."

A safe remedy for all stomach disorders is

Dr. Caldwell's Syrup Pepsin

It never creates a "habit." It does not operate on the stomach and bowels as most remedies do. The pepsin contained in it is a great digestor. It quickly relieves the distress of indigestion, without any of the dangers which come with the use of soda.

As a laxative it produces quick and pleasant results. No stomach is too weak to be benefitted by it; no condition is beyond its power to cure. All druggists sell Dr. Caldwell's Syrup Pepsin at 50c and \$1.00.

Your money back if it don't benefit you. Pepsin Syrup Co. A star be a same the star
