

KILAUEA VOLCANO HOUSE

HAWAII NATIONAL PARK
POST OFFICE VOLCANO HOUSE, HAWAII

1/30-24

My Dear Clare

we are at The Volcano
house two and one half miles
from the crater and can see it
very plainly from here was over
last night and again today
seeing it by night and by day
the auto drive is with twenty ft.
of the crater as close as they
can get on account of the heat.
The crater is fifteen hundred ft.
one way and two thousand ft.
the other way and is now about
one hundred and fifty ft. from
the top they say it drops down
to one thousand ft. and then comes
to rise again and is one solid mass
of red hot boiling metal imagining
a mass of this size it is the
grandest sight I ever saw and
worth all my trip cost - we
I will be back in Honolulu Friday

Morning And will cable you
from there will leave Honolulu
for Frisco one week from 15 day
and will expect a lot of mail
when I get. There are feeling fine
the best I have in a long time
and Lizzie is 10 only dreading
her trip home on account of
seasickness she got sick on the
trip over here from Honolulu
hope things are going all right.
at home am not worrying
about it anyway With love to
yourself Frouley and the kid
I am
Dad
