BISHOP KEANE.

LAST DAY'S SESSION OF NATIONAL EDUCATIONAL ASSOCIATION.

A Paper Condemning the Promiscuous Bestowal of Honorary Degrees by American Colleges.

NASHVILLE, TENN., July 20.—The session of the National Educational Association was opened in the morning with prayer by Bishop Keane, Rector of the Catholic University at Washington. The committee on honorary members of the national association added the following names to the roll: Mrs. President Jas. K. Polk, Gov. R. L. Taylor of Tennessee, John M. Lea, President historical society of Tennessee; Hon. G. M. Fogg, president Nashville Board of Education and Colonel A. S. Colyar, of Tennessee, Alex Hogg, of Texas, read a paper on "Universal Suffrage and Universal Education," advocating national financial aid to education in the south. A per capita debt of $13 will not permit the south, he said, to meet the requirements of the hour. He also urged absolute unsectarianism in any system of public instruction. The family and the church with six-sevenths of the time of the child should care for its moral and religious training. Professor Charles Foster Smith, of Vanderbilt university, read a paper condemning the too promiscuous bestowal of honorary degrees by American colleges.

Invitations have been received from St. Paul, Minnesota, Saratoga, N. Y., Lexington, Va., and Bethlehem urging their respective attractions as a place for holding the next annual meeting. The matter will not be determined upon until next October.

The closing exercises last night consisted of an enthusiastic meeting, supplemented with a reception at the Commercial club. The national committee on resolutions condemn the delay of congress in passing pending bills in aid of education, and urge the necessity for increasing the proposed appropriations. At 11 o'clock the meeting adjourned sine die.

The Board of Directors decided in the afternoon to hold the next annual meeting in St. Paul, Minn., if satisfactory arrangements can be made with the railroads, and local facilities can be secured.

HOW UNCLE SAM

FAILED TO GET THE FINE HARBOR OF ST. NICHOLAS MOLE.

An Explanation of the Haytian Commission Appointment.

WASHINGTON, July 20.—What may be an explanation of the appointment of a commission to Hayti has come to light. Shortly before the late President Solomon of Hayti died, he made a formal proposition to President Cleveland to give the United States the absolute right to the harbor of St. Nicholas Mole for a naval station. This was done in the hope of settling any differences between his country and the United States, and was coupled with the hope that the latter would extend a protection over Hayti and thus put affairs on that island on a more stable basis. President Solomon died soon after and this delayed action. When Mr. Blaine took charge of foreign affairs, it is said he was favorably impressed with the proposition and organized the commission to carry out President Salomon's plan. Hayti is closely allied with the interests of the Panama and Nicaragua canals, and supremacy of the United States there would effectually assist us, it is thought, in a commercial way.

MONTANA'S SUNDAY.

No Likelihood of Any Legislation Against Sabbath Observance.

HELENA, July 20.—General Charles S. Warren, member of the Constitutional Convention from Silverbow county, was interviewed respecting the memorial presented by him protesting against any provision requiring observance of the Sabbath being embodied in the constitution. He said that he had simply presented it as a matter of courtesy to a constituent, Dr. O. B. Whitford, of Butte, who is an infidel.

The remonstrance proved to be a lengthy attack on the Christian religion, and before its reading was concluded it was referred to a committee.

There is virtually no Sunday law in the Territory. The Methodist conference, which met here last week, memorialized the convention to make no provision that would require the legislature to pass one. It was this that provoked Whitfield's remonstrance. Both were referred to the same committee, where they will be probably be allowed to slumber together.

General Warren repudiates any sympathy for the sentiments expressed in the petition which he presented.

A resolution prohibiting the sale of school lands was reported favorably by the committee.

WASHINGTON'S BILL OF RIGHTS.

Similar to that Adopted at Sioux Falls, but No Mention of God.

OLYMPIA, W. T., July 20.—The bill of rights as proposed by the legislative committee is similar to that of the Sioux Falls constitution, but nowhere does the name of God appear. It contains provisions to shut off the Pinkerton detective system from employment by corporations. The clause relating to the jury system leaves it open for a jury to consist of less than twelve in number.

The Judiciary Committee favors a Supreme Court of three judges and a Superior Court system similar to that of California. Minority reports want five Supreme Court Judges. The Committee on Executive favors restricting the Governor's pardoning power to a recommendation to a Board of Pardons, to consist of the presiding Judge, the Secretary of State and Attorney General.

At yesterday's session of congress, Mr. Bowen, a representative of the Knights of Labor, dwelt upon the difficulties encountered in the work of organization in America owing to the continual influx of immigrants. He urged that misrepresentations by emigration agents ought to subject them to severe penalties. The workingmen of Europe, he said, would win the sympathy and support of Americans if they would take up the question of emigration.

MATTHEW HARRIS' IDEA.

Of Opinion That Irish Landlords are Worse Than Bengal Tigers.

LONDON, July 20.—The cross-examination of Mr. Matthew Harris, member of the House of Commons for East Galway, was continued before the Parnell commission. He testified that he could not say whether $530,000 was the amount Mr. Patrick Egan acknowledged receiving from America. Witness went to New York in 1883 via Paris, getting money from Mr. Parnell to pay part of his expenses. He met Egan, Walsh and Sheridan. He did not believe that Sheridan would enter into a conspiracy to commit murder. Mr. Harris declared that he had never incited any person to commit crime. He had declared that landlords had done more harm to Ireland than could have been done by Bengal tigers or any other wild animal indigenous to the tropics.

WICKED WIFE.

A COLUMBIANA COUNTY WOMAN GIVES HER OLD HUSBAND

Arsenic, and Calmly Awaits His Death—Young Nellie Breeze Found by the Coroner to be a Murderer.

TORONTO, O., July 20.—A story of a terrible poisoning case has just reached here from Cobourg. George Breeze, aged 60 years, an industrious workingman, lived with his second wife, who is about 30 years old, near Brighton, and Lena a 10-year old daughter of his first wife. About a week ago he died and his wife told the neighbors that he had committed suicide with rat poison, saying that he was tired of life, and dying in her arms. This story was not credited by some and an inquest was held. Lena, the daughter, told her story, concocted by the woman, and presisted in it for several days. At length she devulged the terrible secret.

One evening, she said, her mother told her not to eat any of the berries provided for tea, as she had put rat poison in them to get rid of her husband. Breeze ate the berries, was taken sick and at different times subsequently he was given water, and a biscuit which his wife had dosed with arsenic. For five nights and four days Breeze was dying. He suffered intense agony, his wife all the time displaying the utmost indifference to his condition and refusing to call a doctor. When Breeze died he was alone in his bedroom and his wife and daughter were down stairs waiting for him to die.

The coroner's jury found Nellie Breeze guilty of the murder of her husband and she is under arrest.

SUICIDE BY HIS CHILDREN'S GRAVES.

A Disconsolate Father Concludes He Has Nothing to Live For.

NEW YORK, July 20.—James Coupland, of Amityville, 43 years old, attempted suicide about 6 o'clock last evening by shooting himself by the graves of four of his children in Greenwood cemetery. He will die. Mr. Coupland was formerly a prosperous fish dealer in Fulton market, and lived in a fine house, which he owned, in Brooklyn. Three years ago his fourteen-year-old son Edward was accidentally shot and killed. Within a month from this occurrence three of his other children sickened and died, and it is thought that his mind has never recovered from this shock.

Soon afterward he sold out his fish stand in Fulton Market, and also his Brooklyn property.

RERATING PENSIONS STOPPED.

Tanner Begins to Apply the Conservative Brakes.

WASHINGTON, July 20.—Joseph C. Squires, of Pennsylvania, an $1,800 clerk in the pension office, in charge of the records of the medical examining board, has been dismissed. This action was based upon the same causes that occasioned the other changes recently made in the medical division. Commissioner Tanner considered that too much liberality had been shown in rerating pensions. All such cases are now held up and action upon them is suspended for the present. It is expected that the secretary of the interior will soon make a ruling defining the policy that is to be pursued in such cases.

He further says he is willing to leave his chances with the people, and will not travel over the state begging for the nomination and seeking to set up delegations.

THEMARKETS.

Chicago.

CHICAGO, July 20.—Wheat sold within a narrow range, and close ⅛c to ⅛c better than Thursday. The principal trading was done during the first hour and just before the close. Local storms advanced prices early. Cables reported lower prices in Liverpool and this together with free selling and a prospect of increased receipts caused weakness and a decline. Just before the close a flurry of buying put prices very near the top for the session.

Corn and oats were dull and without important change. Provisions were firm and higher early with weakness later and a partial rally before the close, leaving prices 2½ to 7½c under Thursday night's figures.

Closing prices: Wheat: July 80⅜c. Corn: July 35⅝c. Oats: July 22⅛c. Pork: July $11 05. Lard: July $6 16¼. Ribs: July $5 50.

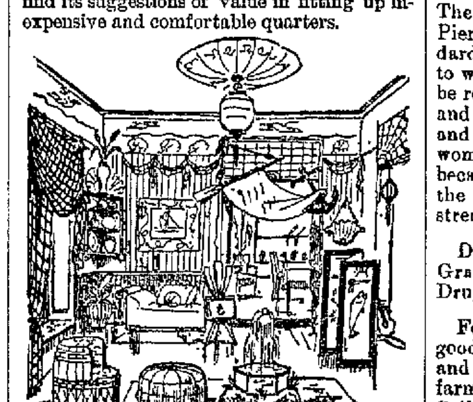
A SEASIDE COTTAGE INTERIOR.

It Would Do as Well for the Interior of Any Summer Cottage.

The season of outing is at its height, and therefore the accompanying matter and illustrations, furnished to The Decorator and Furnisher by C. W. Clark, will be of interest. Mr. Clark has in mind especially the interior furnishing of a seaside cottage, but his design is suitable for a summer cottage anywhere. He offers his sketch to the rich and the poor, the owner and the tenant, hoping that not only professional decorators but home artists will find its suggestions of value in fitting up inexpensive and comfortable quarters.



INTERIOR OF A SEASIDE COTTAGE.

This article is also intended to reach that class of owners of miles and miles of ocean shore lands, who it seems prefer to let the lands remain barren waste instead of erecting thereon, at small cost, a number of portable bungalows, or one story cottages, which would not only be in great demand at the approach of the spring season, but would bring in quite a fair income. These little houses would be eagerly sought after by those who prefer the home quiet and privacy they afford to the discomforts of the stuffy and cramped quarters of the majority of our seaside hotels.

Houses like these can be constructed in such a manner that if occasion demands they can be readily moved or taken down, and from $200 to $1,000 would cover their cost and erect them in an artistic and substantial manner. The interiors offer a wide field for home or the professional talent.

Happy Homes.

Here's a health to the wives and the mothers
Who sit in our households to-day;
Who are glad when they brighten for others
The hours that go drifting away.
May their eyes keep the light of the gladness,
Their hearts hold the fullness of bliss
That banishes shadows and sadness,
And what need we ask more than this?

But, how can this happiness be kept? What shall protect these we love—those who make a heaven of the home—from the ravages of disease that is often worse than death—that is, in fact, a lingering death. The question is easily answered. Dr. Pierce's Favorite Prescription—the standard remedy for all those peculiar diseases to which women are subject—is what must be relied on to preserve the health of wives and mothers. It prevents those diseases, and it cures them. It is a blessing to women and therefore a national blessing because it gives health to those about whom the happiness of home centers, and the strength of a nation is in its happy homes.

He will be assisted by some of our local talent. The proceeds of the concert will be for the benefit of the First Congregational church Sunday school (Welsh) of this city, and it is to be hoped that lovers of good music will liberally aid this worthy cause by being present at the Opera House on the evening mentioned. Prof. Ap Madoc has done much towards the promotion of congregational and church music in this country during the past twenty years and for that, if for no other reason, is eminently worthy of a full house.
