Thirty-First Year. DECATUR, ILLINOIS, THURSDAY EVENING, MAY 13, 1909. No. 133.

NO DEEP CHANNEL

Henson Hears It Will Cost $100,000,000 and Blocks Big Plans

Nothing in That Story About Lorimer For U. S. Senator.

Springfield, May 13.—Senator Henson of Decatur is opposed to all the deep waterway legislation that has been proposed up to this time. He and other legislators have been figuring that it will take $100,000,000 to complete the work and they do not want the state to be called on for $20,000,000, then another sum and so on This view is pretty generally entertained and the chances are that no state waterway legislation will go through unless arrangements can be made with the federal government to carry out the work.

NO CHANCE FOR IT.

The second bill introduced by Senator Jones a few days ago was referred to the judiciary committee. The bill for ten hours a day was changed to eight hours and then handed over to Mr. Jones to be put through. He has no chances to put the bill through

FEAR FOR THE FAIR.

There is a great deal of fear among Springfield people that the state fair will be moved to Peoria. It is thought if the bill ever gets as far as the senate, it might be passed, but some think it will never get that far. Representative Robinson thinks the bill will never get through the house. Senator Henson is opposed to the bill. Work on finding out what shape the matter is in in the senate is now going on.

TWO FAVOR RAILROADS.

Representatives Perkins and Robinson are both opposed to any railroad agitation at this time. They are opposed to the bills affecting railroads that have been introduced. It is their opinion that business conditions for the railroads have been very much disturbed in the last two years and that they should be given time to get back to normal conditions.

LOCAL OPTION TO STAND.

Representative Robinson is opposed to any changes in the local option law. Both he and Representative Perkins voted to strike out the enacting clause, giving towns and cities the right to vote regardless of township elections. It is not likely that that change in the law will go through the house. Friends of the bill have about eighty votes in the house.

LORIMER STORY.

There is nothing to the story that William Lorimer will be elected United States senator. It is not probable that he will ever be elected.

CHARTER BILL BEATEN.

The most important of the Chicago charter bills, the consolidated bill, was up in the senate for third reading on Thursday morning. It was badly beaten.

There were sixteen votes for it and seventeen against. Twenty-six votes were needed to carry it. A reconsideration of the matter was moved and it will be had next Wednesday. Every indication is that the Chicago charter bills will be defeated.

BIG SPEECHES.

A bill was up in the house Thursday providing for a double platoon of firemen. The bill was defeated. There were only fifty-nine votes for it, while it needed seventy-seven to carry it. Some big speeches on this subject were made.

HENSON HOLDS UP BILL.

The road and bridge tax bill, providing that taxes in cities of 15,000 or under be turned over to the city and not to the township, passed the house and is on second reading in the senate. Senator Henson postponed the bill for a week to offer an amendment that cities of 30,000 be put in place of cities of 15,000.

NEW BILL IN HOUSE.

Springfield, May 13.—Federal cooperation, not alone in plans for the deep waterway but in the actual appropriation of money to be spent in creating a channel for ships from Lake Michigan to the Gulf of Mexico, is an integral part of the deep waterway bill introduced in the house Wednesday afternoon by committee.

WHEN WORK SHALL BEGIN.

The measure provides for the appointment of a waterway commission of Illinois to consist of seven members, not more than four of whom shall belong to the same political party, the governor to have the appointing power by and with the advice and consent of the senate. No actual work shall be begun on the deep waterway until the actual expenditure of federal funds have been authorized and the amount of the federal appropriation shall be sufficient with the $20,000,000 voted by Illinois, to complete the deep waterway and all appurtenant works proposed by the state of Illinois in conjunction therewith, as authorized by this act.

FEDERAL CONTROL.

The bill vests in the United States government entire control of the waterway when it is open for navigation and provides "that the state shall develop water power, dockage and other collateral utilities in connection with the deep waterway and forever own and control the same. The depth of the channel shall be not less than twenty-four feet and the five locks must not be less than 108 feet wide and 960 feet in length. The commission is authorized to cede to the federal government such property as pertains to the duties of the national government in the interest of navigation."

The work of excavation may be carried on by direct employment of labor if the commission so elect.

The $20,000,000 bonds are to be issued in denominations of $500 each.

OTHER PROVISIONS.

Other provisions provide for the condemning of property for the right of way; the leasing of electric current that may be generated by the water power; the payment of salaries and expenses of the commission which shall not exceed a total of $200,000.

The bill was read first and advanced to second reading without reference.

LINEUP ON WEDNESDAY.

Adkins Moved to Strike Out the Enacting Clause.

Springfield, May 13.—It was Representative Adkins of Piatt that moved in the house Wednesday to strike out the enacting clause in the bill to change the local option law and in a short speech told the members that the measure was designed to repeal the local option law now in force in the state.

Following Adkins' brief address, Browne again took the floor and pointed out his reason for having the bill advanced to third reading and why the enacting clause should not be stricken.

"It is not good reason," said Browne, "to have people in the country dictate the affairs of a city, town or village, when they are not burdened with taxation for municipal purposes."

HOW THE MEMBERS VOTED.

The vote on the motion follows: Ayes—Abbey, Adkins, ApMadoc, Blair, Bolin, Burgett, Campbell, Carter, Chipperfield, Church, Cliffe, Crawford, Dudgeon, Durfee, English, Epsy, Etherton, Finley, Flagg, Fulton, Gillispie, Grace, Gray, J. Groves, W. M Grove, Hagen, Hamilton, Holaday, Hollenbeck, Hull, Huston, Ireland, Jewell, Kerrick, King, Kirkpatrick, Kittleman, Lawrence, Lewis, Liggett, Logan, Lyon, McCullum, McMackin, Mills, Montelius, Perkins, Pervier, Pierson, Richardson, Rignoy, Robinson, Scott, Shaw, F. A. Shepherd, Sollitt, Stevenson, Terrill, Ton, Welborn, G. H. Wilson, H W. Wilson, Wright, York, Zipf—65.

Nays—Allison, Abrahams, Altschuler, Beel, Beckemeyer, Behrens, Black, Brady, Briscoe, Browne, Burns, Bush, Butts, Cermak, Clark, Cochran, Daley, De Wolf, Dillon, Donahue, Erby, Erickson, Fahey, Fieldstack, Flannigan, Forst, Foster, Galligan, Geshkewich, Glade, Gorman, Griffin, Hilton, Hope, Hurby, Hutzler, Hanually, Keck, Kleeman, Kowalski, Lane, Lantz, Lederer, Link, Luke, MacLean, McConnell, McGuire, McLaughlin, McNichols, Morris, Murphy, N. J. Murphy, William Murphy, Murray, Myers, Nelson, O'Brien, O'Neil, O'Toole, Parker, Poulton, Price, Richter, Rile, Scanlan, Schumacher, Shanahan, H. A. Shepherd, Smejkal, Sterns, Sullivan, Troyer, Walsh, Werdell, Wheelan, White, E J. Wilson, R. E. Wilson, Zinger, Mr. Speaker; total, 81.

DENEEN ON GRILL.

Senator Burton Says Things—Disappointed About State Charities.

Springfield, May 13.—Governor Deneen was grilled in a sensational public speech in the senate Wednesday by Frank W. Burton, Democrat, of Carlinville, who in caustic language charged the state executive with influencing some of his friends in the senate to join the politicians in knifing the state board of charities' board of control bill. Burton, in his talk, held the governor responsible for the individual votes of his friends in the senate He cut loose during discussion of the deep waterway bill while it was being considered on the order of second reading.

A big lobby from the penal and reformatory institutions has been on the ground fighting for amendments to the state charities bills. Friends of the governor insist these men were able to influence votes for the amendments to the bill.

NOMINATIONS CONFIRMED

Governor Deneen's vacation nominations were confirmed Wednesday by the senate in executive session. There was no opposition to the governor's appointments, which were acquiesced in by the senators without a dissenting voice. These were the nominations sent in two weeks ago and held up.

The fact that they were confirmed without objection is considered significant and is taken to mean that differences between the governor and Lieutenant-Governor Oglesby have been smoothed over. The lieutenant-governor was reported as ready to make trouble for the governor on account of a game warden job in Oglesby's territory. The senate's action may mean that the proposed resolution calling for an investigation into the conduct of the game warden's department may never be pressed.

WATERWAY BILL ADVANCED.

The deep waterway bill was advanced to third reading after administration aids in the senate tossed in the waste basket a dozen or more amendments Two slight changes were made in the original bill. One placed the attorney for the commission under the attorney general and cut the salary from $7,500 to $5,000 a year. The other changed the width of the canal from the Lockport power house to the Des Plaines river from 300 to 160 feet. This was to meet a simple proposition of engineering.

BILLS PASSED BY THE SENATE.

The senate passed the Ettelson bill, providing for a uniform price on text books throughout the state. There was a large majority for the bill.

Two bills by Senator Funk were passed. One provided for the licensing of stallions and the other for the printing of 50,000 copies of the report of the state farmers' institute, bound in cloth. One copy is to be sent to each country school in the state. Heretofore but 30,000 copies have been printed.

MONEY FOR ORPHANS.

House Appropriations Committee Pretty Liberal in Sums Voted.

Springfield, May 13.—The house appropriations committee decided upon another lot of appropriations Wednesday. The Soldiers' Orpheans' home at Normal is allowed $67,500 annually for ordinary expenses. The committee also recommended the appropriation of $3,000 annually for repairs and improvements; $400 for library, $2,000 for fire protection, $1,200 for heating, $1,200 for rewiring of old building, $600 for iron chairs, $1,000 for concrete sidewalks, $1,000 for iron beds and springs, $2,500 for industrial shop equipment, $10,000 for the installation of an electric light plant and $1,000 for plumbing. The estimate of $7,000 for a new laundry and equipment to replace the one burned, was cut out, as was also that of $1,000 for a new well.

$400,000 FOR U. OF I. BUILDING.

The committee also decided to recommend the appropriation of $400,000 for a new building for the college of agriculture at the University of Illinois. A surgical institute for the treatment of deformed children is to get $60,000. The Yates monument is to be erected in Jacksonville and the Altgeld memorial in Sherman park, Chicago, costing $7,500 each.

OTHER APPROPRIATIONS.

Ordinary appropriations for other charitable institutions will be recommended as follows, for each year:

Western hospital for the insane, Watertown, $175,000.

Soldiers' and Sailors' home, Quincy, $205,000.

Hospital for the deaf, Jacksonville, $125,000.

Hospital for insane, Jacksonville, $225,000

Criminal insane, Menard, $40,000.

Hospital for insane, Kankakee, $406,000

The special appropriations for each institution run far into the thousands, the largest single item being $26,000 for an electric light plant at the Quincy Soldiers' and Sailors' home.

STILL NO SIGN OF A SENATOR

Springfield, May 13.—The eighty-sixth joint ballot for United States senator today resulted:

Hopkins	71
Foss	14
Mason	2
Shurtleff	19
Stringer	30
P. W. Gallagher, Canton	26
Scattering	13

Senator McElwain voted for Congressman Lorimer.

HE WANTS DUTY ON IRON ORE

Washington, May 13.—After a call of the senate had shown that sixty-three senators were present today Burrows spoke in favor of a duty on iron ore as a source of revenue for the government. The present duty of 40 cents a ton, which the committee proposes to reduce to 25 cents, yields, he said, a revenue of $332,000, which would be lost by placing iron ore on the free list as proposed by the house.

MEN EMPLOYED.

Reading statistics of the iron ore industry Burrows said it was reasonable to state that at the present time 56,500 men are employed, receiving wages amounting to $1,500,000 in the production of iron ore, which industry, he says, it was now proposed to open up to the competition of the world.

ARE IN SIGHT.

Quoting from advance proof sheets of the next annual report of the geological survey, Burrows said there are now in available ore in the United States, 3,500,000 tons of high grade ore while in Michigan, Minnesota and Wisconsin there were of lower grades, ores that will be available and are now useful 72,000,000 tons, making 75,500,000 tons in addition to which it is estimated that Cuban deposits of high grade ore belonging to the Pennsylvania Steel company account to 1,575,000 tons.

GORE DEFENDED THE RETAILERS

Washington, May 12.—Gore vigorously defended retailers against charges of extortion. "This senate," declared Gore, "has turned itself into a grand jury and is here ready to return a verdict against the retail dealers for the high prices of articles used by the American people.

"Manufacturers and trusts are undertaking to hold up the middlemen and the retailers as a shield to protect themselves against outraged consumers

"I stand here to enter a plea of 'not guilty' for the retailers of this country."

Gore named shoes, hats, shirts, clothing and other articles as being sold to retailers under contract that they should be sold at an agreed price.

MUSIC DOMINANT AT BIG FUNERAL

Impressive Services for Conreid in Great Opera House.

New York, May 13.—With impressive services in which music played a dominant part, the public funeral of Heinrich Conried, former director of the Metropolitan Opera company, was held today in the building which had been the scene of his indefatigable labors and many triumphs in the years of his directorate. The auditorium held a great throng, the numbers seeking admittance greatly exceeding the seating capacity of the structure.

DECLINES TO SERVE AS AIDE

Hartford, Conn., May 13.—Major Theodore Roosevelt, Jr., son of former President Roosevelt, who was military aide on the personal staff of the late Governor Lilley, will not serve in a like capacity on Governor Woek's staff. The latter today reappointed Lilley's staff as his own, but Roosevelt's name did not appear, he having declined to serve.

FOURTEEN NIGHT RIDERS ARE FINED

Waverly, Tenn., May 13.—Fourteen men, charged with being night riders, were fined $500 each and sentenced to ten days in jail, upon the complaint of J. M. Reece, whom they whipped Oct. 15, 1908. After the verdict had been announced the sentenced men shook hands and went to their cells.

DEPUTIES IN WILD SCENES

Refuse Vote of Confidence to the Government.

Paris, May 13.—There were wild scenes in the chamber of deputies this afternoon when the government asked for a vote of confidence on the attitude assumed by it in the strike of the government employes.

The stand taken by the postmen had many warm supporters.

HAT HAD NO EFFECT.

The uproar became so fierce that M. Brisson, president of the chamber, clapped his hat on his head as a sign that the session was closed.

TURMULT.

The tumult, however, continued. One of the delegates bounded over the president's chair, grabbed a bell and rang furiously, then the socialists began singing the "Internationale" to which the royalists standing on chairs, replied by singing "Vive Henry IV."

FRANTIC DELIRIUM.

Finally the public and press galleries were cleared but there was frantic delirium both inside and out the chamber.

Outside in the corridors several persons who raised the cry of "Vive Le Rol" were almost mobbed.

After an hour's intermission the session resumed but the Socialists were soon on the verge of fistcuffs with the radicals, and the sergeant-at-arms was again forced to intervene.

STRIKE EFFECT SMALL.

Paris, May 13.—The number of striking government employes shows no appreciable increase this morning.

SOME GO BACK.

Services are normal. At some places, notably Bordeaux, the telegraphers who went out yesterday have returned to their posts.

Concerted efforts of strikers stationed at various bureaus in Paris to induce their comrades to poin their movement have been without effect.

BOTH CONFIDENT.

The authorities are confident that the strike will be over in a few days. On the other hand the leaders of the strike claim that the government is "bluffing" and that its figures regarding the number of men out are ridiculous. They declare that the movement will extend rapidly.

ONE PLACE WORSE.

Only at Havre, where both the post and telegraph services are practically tied up, is the situation worse today.

A batch of dismissals last night evidently has dismayed the rank and file.

OUTGOING MAILS AFFECTED.

Official figures issued last night placed the number of strikers in Paris as 165 out of 11,000. Owing to the defection of a majority of the mail clerks, the outgoing mails were more or less grianded. The hotbed of the previous revolt, the central telegraph bureau, was quiet, the night shift reporting for duty as usual.

The cabinet decided upon the immediate dismissal of 121 postal employes, male and female, belonging to the telephone service, and also the dismissal of seven provincial employes.

MESSAGE A BLOW TO POLITICIANS

San Juan, P R, May 13.—Only excerpts from President Taft's message on Porto Rico have been received here. These have caused excited comment, mostly of an unfavorable nature.

President Taft's attitude has caused general disappointment among the politicians of all parties. Gov. Post, speaking today with reference to the message, said it would undoubtedly be disappointing to political circles, but he anticipated no trouble in the island. Senor Rivara a prominent unionist, declared "the message of the president is an insult heaped upon a weak people that cannot reply."

There is no unrest here and business interests are not affected.

NOISY WELCOME FOR THE WRIGHTS

Dayton, O., May 13.—The Wright brothers and Miss Katherine Wright arrived in the city at noon today. Enthusiastic was the reception tendered them by their old friends and neighbors. More elaborate ceremonies are to take place June 17 and 18.

At the station they were greeted by a large throng of cheering admirers amidst shrieking whistles and booming cannon.

NOT READY FOR PORTO RICO TALK

Washington, May 13.—By a vote of 74 to 104 a resolution by Garrett (Tenn) directing the speaker to forthwith appoint a committee on insular affairs to consider the president's Porto Rican message was defeated in the house today.

SAYS HARRIMAN IS NOW IN CONTROL

New York, May 13.—The report is current here that E. H. Harriman now has an interest in the Chicago & Great Western line and that after the rail line is reorganized it will probably be divided between the Chicago & Northwestern and the Illinois Central roads.

TEXAS HAS BANK GUARANTY LAW

Austin, Tex., May 13.—After passing a bill for the guaranty of bank deposits the Texas legislature has adjourned. The governor is satisfied with the bill.

ATTEMPT MADE AT A KIDNAPING

Vincennes, Ind., May 13.—J. E. White, 30 years old, who says his home is in Texas, is under arrest here, charged with an alleged attempt to kidnap little Willie Hamilton, son of a North Vincennes contractor.

GOLF PLAYING OF NOTED MEN

Washington, May 13.—On the beautiful links of the Chevy Chase Golf club, where President Taft and other men prominent in public life have matched their skill, players representing clubs as far west as the Pacific coast, and east as far as New York contested in the spring tournament today. The first surprise came in the excellent showing which T. M. Sherman, son of Vice President Sherman, made in the morning round, and the comparatively poor performance of W. J. Travis, former champion of the United States.

Sherman made the round in 80, while Travis had to be content with 83.

When playing with the president yesterday Travis played the course in 74. They won by 1 up, Taft's score being 92.

SAVED BRIDGE TOLLS BUT THREE DROWNED

Pittsburg, Pa., May 13.—To save five cents bridge toll, five foreigners, who had been out of work for many months, attempted to cross the Monongahela river at McKeesport, a suburb, Wednesday in a small boat which sank as they got into midstream, drowning three of the men. Five hundred school children enjoying their first day's diversion in a new playground saw them drown.

TWO GIFTS, EACH OF $100,000

Chicago, May 13.—Dr. J. R. Montgomery of Chicago Theological Seminary announced Wednesday that he had received a letter from D. K. Pearsons, the philanthropist, in which a gift of $100,000 was promised to the institution.

E H. Gary gave $100,000 outright to the Y. M. C. A. of Gary, Ind., for a building.

COREY SEES RETURN OF PROSPERITY

But We Must Have Tariff Readjustment and Average Crops.

New York, May 13.—William E. Corey, president of the United States Steel corporation, sailed today on a vacation trip to Europe

Corey spoke optimistically of steel conditions and declared that with an early tariff adjustment and average crops a speedy return to prosperity might be expected.

DIED AFTER HIS AUTO HIT EMBANKMENT

Salina, Kan., May 13.—A. P. Riddle, former lieutenant governor of Kansas, was killed near here today in an auto accident.

Riddle was enroute from Minnea, Kan., his home, to Salina on a pleasure trip accompanied by a party of four. The machine struck an embankment, throwing the occupants into a ditch. Riddle struck on his head and lived but an hour.

THREE HURT WHEN AUTO TURNED OVER

Ashmore, May 13.—A large automobile, driven by T. J. Swinford, accompanied by six of his friends, turned turtle on a steep grade about a mile and a half north of this village Wednesday morning and plunging over an embankment into a ditch buried all the occupants beneath it. The injured are: T. J. Swinford, D. S. Apple and Bruce Buckley, three residents of Oakland.

BASEBALL APPROVED FOR PLAYGROUNDS

Pittsburg, Pa., May 13.—That baseball is a healthy sport for boys and should be encouraged on public grounds was the decision of the Playground Association of America at yesterday's session of its annual congress.

YOUNG TURK SOLDIERS REBEL

Officers Tell of Threats of a General Massacre.

Cologne, May 13.—The Koelnische Zeitung today publishes a dispatch from Saloniki saying that the Young Turk officers at Erzeroum, Asiatic Turkey, have sent a telegram to local officers of the committee of Union and Progress declaring that their soldiers are refusing obedience, demanding the restoration of Sheriat and threatening a general massacre.

AMERICAN CUTTER THERE.

Alexandretta, Asiastic Turkey, May 13.—The United States revenue cutter, Tacoma, arrived here today for the protection of American interests.

USE WIRELESS TELEPHONE

Milwaukee, May 14.—The wireless telephone between Chicago and Milwaukee was in operation today, the first message received in Wisconsin being picked up at the office of the Milwaukee Journal. The message came without falter or hesitation, clear and distinct.

FIFTY-FOOT ROAD GULF TO LAKES

Cincinnati, O., May 13.—Charles W. Thatcher, an "apostle of good roads," who travels in the quaint manner of a prairie schooner hauled by two mules, is in this city and gave an address before the Cincinnati Automobile club. Thatcher told of his plans and in his address said:

"My plan is simply to awaken public sentiment in good roads. To do that I travel as I do and get right next to people most interested in the movement—the farmers and the residents of small villages.

"We propose to awaken public sentiment to such an extent that congress will appropriate money for a national 'gulf-to-lakes' highway, beginning at Detroit and passing through Toledo, Indianapolis, Lincoln's birthplace at Hodgenville, Ky., Tennessee and Alabama. The average cost of construction will be about $5,000 a mile.

FIFTY-FOOT HIGHWAY.

"We want a fifty-foot highway, which will allow for grass plats on either side, with double rows of trees planted the entire length. The under surface should be rolled and covered with a top dressing. When we get this highway we'll work for others, parallel and intersecting, until every commercial center is a ganglion in the nerve system of the country."

MEASLES EPIDEMIC IN CHICAGO

Chicago, May 13.—This city is suffering from an epidemic of measles, and according to the health department there are now 500 cases in the city.

NOW ALL WILL BUY AIRSHIPS

New York, May 13.—The Wright brothers, in a recent statement to the press stated that one could purchase an aeroplane for $7,500, and high-speed machines could be purchased at $25,000. These larger and speedier cars will carry two passengers besides the aviator.

FIVE YEARS FOR RUSSIAN OFFICER

St. Petersburg, May 13.—Lopukine, former director of police arrested in January on the technical charge that he was a member of the revolutionary organization, was today condemned to five years' imprisonment at hard labor.

BULK SALT UNLOADED FROM COAL WAGON

Made from Water from Salt Wells at Chanute, Kan.

Persons passing the Brodess store on North Main street yesterday were interested in seeing salt in bulk unloaded from a coal wagon into the cellar under the store.

There were about three tons in the load. That was only a small part of the salt that was being received. The total was twenty tons, a full car load. This is not all that will be used during the season, however. A ton a week is required.

MADE FROM SALT WATER.

This salt comes from Chanute, Kan. Salt is made there by pumping from the ground water heavy with salt. The water is evaporated, leaving the salt in beds to be scooped up like sand.

USED SEA SALT.

Last year Brodess & Co. used salt from the sea. This was made on the Atlantic coast. At the salt wells water is generally evaporated in basins over fires. Sea salt works, however, generally evaporate the water by letting it stand in ponds, some of them being more than an acre in extent. The length of time necessary for evaporation depends on the state of the weather. If the days are clear, bright, moderately warm and sunshiny, the salt will be made in six weeks from the time the water is let into the pond at high tide.

BEST CLASSES OF KIND IN ILLINOIS

Boys' Bible Organizations Gain Wide Reputation in State.

The high school Bible classes of the boys' department of the Y. M. C. A. have now gained a reputation of being the best classes of their kind in the state. This is according to statements by State Secretary of Boys' Work L. L. McDonald, and D. R. Porter, the international secretary. Mr. Porter has written to Mr. McDonald asking him to prepare a short sketch of the work that it might be reported at the convention to be held in Omaha and also to be held up as an example to all other Y. M. C. A.'s in their Bible class work.

Mr. McDonald will be here in the city Saturday, Sunday and Monday and will deliver to the boys his illustrated lecture on "Boomerangs."

WON'T GO IF RATES ARE NOT GRANTED

Grand Army State Meeting to be Held in Aurora.

Unless the steam roads make rates as requested for the old Soldiers, probably but few will attend th estate meeting of the G. A. R. in Aurora, from Tuesday to Thursday of next week. The delegates from here are E. T. Blaine, A. J. Johns, Daniel Culp, J. J. Miller and alternates are W. F. Magee, Henry Martin, E. P. Reynolds and J. M. Maris.

WHITE PLAGUE ON INCREASE

Nathan Straus Wants Tuberculin Test or Pasteurized Milk.

Washington, May 13.—That a vigorous campaign against tuberculosis has failed to check the great white plague was the startling charge made today by Nathan Straus, the New York philanthropist, at the annual meeting of the National Association for the Study of the Prevention of Tuberculosis, here today. Abolition of tuberculosis will begin, he asserted, when it is made a crime to sell milk unless it comes from tuberculin-tested cows, or has been properly pasteurized.

TO SAVE BABIES IS CONGRESS' AIM

Summer's Heat Shall Not Make Such Ravages.

Macomb, May 13.—The Illinois congress of mothers convened in the state normal building here Wednesday for a two days' session. About fifty women arrived on a special train from Chicago and were escorted to the building, where an informal reception was held.

MRS. HENROTIN SPOKE.

The program Wednesday evening consisted of musical selections by local talent and an address of welcome by President Bayliss of the State Normal school, with a response by Mrs. Orville T. Bright, president of the Illinois congress of mothers. Dr. Nathaniel Butler of the University of Chicago then gave a lecture on the "Modern Aspects of Education." Much interest was displayed in an address on "Ethical Training of Girls" by Mrs. Ellen M. Henrotin of Chicago.

CAMPAIGN TO SAVE BABIES.

One of the most important measures to be brought to the attention of the congress will be a plan for a campaign against infant mortality throughout the state. The matter will be presented by Dr. A. L. Lindsay-Vynekoop, wife of Dr. Frank E. Vynekoop, 1533 West Monroe street, Chicago, who will outline the plan which is to be carried out in Chicago this summer looking toward the education of young mothers in the care and diet of their infant children. Similar campaigns will be urged for other parts of the state, that some of the thousands of babies under one year old who are annually claimed as victims in Illinois by the extreme heat of summer, may be saved.

ELKS ELECT; SELECT QUINCY

Springfield, May 13.—The Illinois Elks' association today elected the following officers for the ensuing year:

President—Hon. Harry A. Shepherd, Jerseyville.

Vice President—Burke Vanoll, Springfield.

Secretary—A. J. Cowels, Rockford.

Treasurer—E. C. Hardin, Monmouth.

Quincy gets the next convention.

BOB BURDETTE'S WIFE IS SERIOUSLY ILL

Los Angeles, May 13.—Mrs. Robert J. Burdette, wife of Rev. Robert J. Burdette of Temple Baptist church, was stricken critically ill last night while in her husband's study, and remained unconscious for several hours.

Dr. Burdette recently sustained concussion of the spine as the result of a fall and the strain of caring for her husband is believed to have brought on Mrs. Burdette's present illness.

YATES PUT ON EXECUTIVE BOARD

Springfield, May 13.—The Illinois State Historical association met Thursday morning and reelected all of the old officers. Richard Yates was chosen to fill the place on the board of directors made vacant by the death of George M. Black.

MYSTERY IN DEATH OF BUTCHER

St. Paul, Minn., May 13.—Louis Arbogast, a well known butcher, was murdered in his home early today. His head was crushed and his bed, the police say, was saturated with oil and set on fire. The affair is rather mysterious. The police are investigating it, as stories of Ida, aged 22, his daughter, and her mother do not agree as to details.

THE WEATHER.

Following are the weather indications for the next thirty-six hours.

Illinois: Generally fair, except local thunderstorms tonight or Friday.

THE WEATHER MAP.

Canadian Northwest—Partly cloudy; 38 to 44 above. Local rains.

Northwest—Partly cloudy; 32 to 50 above. general rains in Minnesota and North Dakota.

West and Southwest—Generally cloudy; 44 to 68 above. Showers in Iowa, Missouri, Eastern Kansas and Illinois.

Ohio Valley—Partly cloudy; 58 to 66 above.

Local Observations.

The following is the range of temperatures as recorded by Prof. J. H. Coonradt, United States weather observer:

7:00 a. m.	61
Noon	68
Highest Wednesday	78
Lowest Thursday	58
Sun rises (standard time)	4:43 a.m.
Sun sets	7:01 p.m.
