CARS IN RIVER

Two Score Passengers Drowned Like Rats.

Montreal, Jan. 22.—An official list of victims of the Sudbury accident issued by the Canadian Pacific railway, gives the number of dead as eight, four being Italians, names unknown.

TWO SCORE LOST.

Notwithstanding the official report, it is believed that two score of lives were lost in the wreck at Sudbury.

The train carried about a hundred passengers. As it approached the bridge over the Spanish river the trucks of one of the coaches jumped the track. The car struck the bridge abutments and was cut in two.

DOWN THE BANK.

The speed of the train carried half of that car and all the other cars except the Pullman down the embankment. The Pullman fell on its side.

Caught like rats in a trap, every passenger on the half of the second class coach, the colonist car, and the first class coach, was drowned, and only the most heroic efforts saved eight persons from the diner. The diner had listed sufficiently to allow the passengers to keep above water by hanging to hatracks and other projections.

CONDUCTOR A HERO.

Conductor Reynolds dove under the ice-chilled water and mounting the roof reached down and pulled out Alfonso Rousel, six years old, and Police Magistrate Brodie, a small man, through the ventilators. Others were too big. With superhuman strength Reynolds, aided by those inside, tore a hole in the roof through which eight passengers escaped—all that came alive out of the water with the exception of Brakeman Morrison, who was in the rear of the first class coach, and an unknown man who also managed to reach the surface.

TRAIN INTO RIVER.

North Bay, Ontario, Jan. 22.—The lives of at least a score, perhaps two score of people, were blotted out yesterday afternoon when four cars of a Canadian Pacific passenger train, on the Soo branch, leaped from the tracks and, tearing down a steep embankment, plunged through the ice of the Spanish river.

SOME DROWNED.

Some drowned, others crushed to death by grinding timbers, and most terrible of all, the maimed and injured, caught in the wreckage of one of the cars, were burned to death.

The injured were brought to Sudbury.

The train wrecked was No. 7, en route from Montreal to Sault Ste. Marie, Minn. The accident was probably due to a broken rail.

The engine, baggage, express and mail cars and one second-class coach remained on the rails, while one second-class and one first-class car, the dining car and sleeper went down the embankment.

TWO CARS INTO RIVER.

The first-class car and diner went into the river. The sleeper and second-class car stopped on the embankment, the second-class car catching fire.

The wreck occurred thirty-seven miles west of Sudbury, where the tracks cut into the side of a steep hill skirted by the river The forward part of the train passed over the break.

NONE IN THE DAY COACH ESCAPE.

The day coach, fourth from the end of the train, was the first to leave the rails. The train was running forty miles an hour and the momentum carried the car down hill with a terrific plunge. About twenty-five passengers were in the car and it is believed none escaped.

The sleeper turned on its side on the embankment. Only some of the members of the train crew were in it. They escaped with slight injuries.

$3000 LOSS, HAMMOND STATE BANK BURNS

Efforts of Citizens Saved Other Buildings.

Hammond, Jan. 22.—Fire gutted the interior of the Hammond State bank building early Saturday morning, completely destroying the furiture and equipment and entailing a loss of about $3,000, which is covered by insurance.

There is no theory as to how the fire started except that the furnace might have become overheated and caused the rafters over head to catch fire.

HOTEL GUEST SAW IT.

The fire was discovered by J. Gentry, a guest at the South hotel, about 1:30 o'clock this morning. He immediately turned in an alarm and the local department responded. Their efforts were reenforced by the able work of the citizens who volunteered to save the other buildings in the block. At one time it was feared the entire business part of town might go, but the fire was confined to the bank building. The inside of the printing office adjoining was damaged.

MONEY IN THE VAULT.

All the valuables of the bank were saved. The money and papers were in the bank vault, and the books were there also. None were injured.

The bank building is a single story structure of brick. The entire inside was completely destroyed but the brick walls and the efforts of the firemen and volunteers kept the fire from spreading. The bank building is at the northeast corner of the Main street and the bank owns it.

The fire raged for over an hour before it was finally under control.

CONCILIATION FAILS MADRIZ

Managua, Jan. 22.—The conservative opposition to Madriz and the Liberal party is such that all pretense of conciliation of the various political factions has been abandoned.

Congress has been asked to legalize the paper money issued by the unsuccessful revolutionary party in 1896 and that pensions be granted to those incapacitated in that revolution and to the families of those killed in that uprising.

BERLIN LIKES TONE OF U. S.

Berlin, Jan. 22.—A forecast of the reply of the United States to Germany's recent tariff note, telegraphed in advance, indicates that Germany's position has been treated in a spirit of fairness and an agreement is likely.

QUASH HEINZE INDICTMENT

New York, Jan. 22.—Judge Hough of the United States circuit court today sustained a demurrer entered by Attorney Stanchfield and quashed the indictment against F. Augustus Heinze in the Mercantile National bank case.

GRAHAM ON B.-P. COMMITTEE

Takes Place of Lloyd, Who Finally Got Off.

Washington, D. C., Jan. 22. — Representative Graham of Illinois was last night unanimously chosen in place of Lloyd of Missouri as the second Democratic representative on the Ballinger-Pinchot investigating committee. Ollie James of Kentucky is the other house Democrat already chosen. Graham was nominated at a caucus of Democratic members of the house by Clayton of Alabama.

CANNON'S RULING.

Cannon paved the way for this action by ruling that a member could not be forced to serve on the committee.

The caucus occupied several hours. Several members criticised Taft and Cannon for attempting to dictate the party's choice on the committee. Ellerbe of South Carolina offered a resolution that the Democrats refuse to submit to Republican dictation, but Leader Champ Clark, Underwood of Alabama, and others counseled that the best policy be to act conservatively. Heflin of Alabama offered a resolution expressing confidence in Rainey of Illinois, whose rejection by the Republican caucus occasioned the nomination of Lloyd and Graham. Heflin's resolution, besides extolling Rainey's ability, honesty and integrity, contained some expressions about Republican dictation which party leaders thought would needlessly stir up trouble. Neither the Ellerbe nor the Heflin resolution was adopted.

RAINEY DESIRED NO EULOGY.

Rainey asked that no eulogy on him be passed, as his home people knew him well enough to make such action unnecessary.

Both Clark and James were asked to name Lloyd's successor, but both declined. Sisson of Alabama offered a resolution to fill the vacancy, and declared against issuing any address to the people. This was adopted. Clark will present Graham's name to the house Monday.

CANADIAN NAVY PLAN DENOUNCED

Ottawa, Ont., Jan. 22.—Henir Bourassa yesterday vigorously denounced the Dominion government's policy with regard to a Canadian navy. At the close of his attack, amid a whirlwind of cheers, a resolution was unanimously adopted calling upon the senate and the house of commons to delay action upon the naval bill until the people have had an opportunity of expressing their opinion by means of a referendum.

Mr. Bourassa declared that Sir Wilfrid Laurier's estimate of the cost of the fleet he intended to have constructed was under the mark.

The Monroe doctrine was Canada's defense, he said, and this was so well understood in Great Britain that the motherland had practically abandoned the protection of the Dominion, both on the Atlantic and Pacific, to the United States. Then, why go into this crazy expense of building a Canadian navy?

HOPE TO GET FOUR ROBBERS

Held Up Train Thirty Miles From St. Louis and Robbed Mails.

St. Louis, Jan. 22.—With more than a hundred deputy sheriffs, constables and special service men in pursuit, it is believed that the four men who held up the Missouri Pacific train No. 8 last night near Eureka, thirty miles from this city, will be caught today.

Bloodhounds were put on the trail today.

It is believed that the robbers are hiding in the foothills near Eureka.

MAIL ROBBED.

Just how much the men got from the car is unknown. Twenty-five sacks of mail were ripped open and hundreds of letters rifled, while many other letters and packages are supposed to have been carried away.

The safe in the express car resisted all the efforts of the robbers to open it with jimmies and crowbars and they did not attempt to use explosives.

Two bandits boarded the train at Pacific, nine miles west of Eureka and the other two flagged the train a mile east of Eureka in a lonely spot with red lanterns.

As the train slowed down, the two on board climbed over the tender and covered the engineer and fireman.

CARS CUT OFF.

The engine, mail coach, and combination baggage and express cars were cut off, after the express messengers and mail clerks had been ordered from the cars.

Baggageman Beeton hesitated in leaving the car and a bullet carried away his hat and a lock of his hair.

With one of the robbers at the throttle the engine and the two cars were run to Castlewood, six miles distant, where the robbers leisurely rifled the mail.

ROBBERS LEAVE.

The water was let out of the boiler and the engineer and fireman were ordered to walk east for fifteen minutes under a threat of instant death. The quartet then disappeared into the woods.

The three stranded passenger coaches remained on the main line until 2 o'clock this morning when they together with other portions of the train were brought into St. Louis by a freight train.

MAY BE $10,000.

Postoffice Inspector Dickson stated today that the loot might amount to $10,000, as sixteen pouches of registered mail containing 200 registered letters were rifled.

The aggregate of rewards offered is $5,200.

CHINESE RAIL LOAN ADJUSTED

New York, Jan. 22.—A settlement has finally been reached regarding the Hankow-Szechuen railway loan of $30,000,000, it was reported in banking circles today, and the allotment of bonds will be announced in the near future.

England, France, Germany, and the United States are each to have a one-quarter interest, or $7,500,000 of the loan.

J. P. Morgan & Company, who are representing the American syndicate in the negotiations, have, it is said agreed to reimburse the Macy-Hawley syndicate, who held the original concession from the Chinese government, for all actual outlays heretofore made in cash and to give them a substantial interest in the new loan.

TOM TAGGART WILL LOSE EYE

Natchez, Miss., Jan. 22. — Thomas Taggart, Democratic national committeeman from Indiana, was accidentally shot while hunting with his private secretary, Harry Horton, near Fayette yesterday afternoon. Forty-two bird shot struck Taggart in the face, the right shoulder and chest.

Sight of one eye was destroyed. Horton fired at a bevy of birds, the charge striking his companion, who was in the underbrush. Taggart was taken to Louisville aboard a special train last night.

ADVANCE AND SALES IN STEEL

New York, Jan. 22.—The stock market closed irregular and unsettled.

United States Steel took up an aggressive advance on reiterated rumors of an extra dividend of ¾ per cent to be declared next Tuesday. The price touched 89 on enormous transactions.

The rest of the list was pulled up in sympathy, but did not much more than retrieve earlier losses.

Profit-taking sales made some impression on final prices.

United States Steel reacted 2¼.

FIFTEEN KILLED IN EXPLOSION

Fishkill Landing, N. Y., Jan. 22.—Fifteen men were killed yesterday afternoon by a premature explosion of nitroglycerine in the tunnel which is a part of the great aqueduct which will carry water from the Ashokan dam in the Catskills to New York.

GIVE POWER SITES CONTROL TO STATES

Washington, Jan. 22—Senator Carter after a conference with several western governors who were here at the governors' conference, prepared a bill for turning over to the state the whole question of developing waterpower, and to remove the entire problem of regulating the use of lands and streams, chiefly valuable for development of power, from the control of the federal government.

It is expected the measures will provoke a storm of opposition from supporters of the Taft conservation program, but Carter believes his plan will command the support of conservationists. The bill provides "any state may enter any unappropriated public land within its borders which is shown to be chiefly valuable for use in development of water-power."

The secretary of the interior is to issue a patent to the state for all such land as he may deem necessary for the purpose named. The state is unpermitted to alienate title and the legislature must fix the rates of its rental based on capacity for power development, and regulate the price to be charged for current generated by the power developed.

NO ARRESTS IN SWOPE CASE

Poison Is Believed to Have Been Shown by Tests of Experts.

Kansas City, Jan. 22.—There were no developments in the Swope mystery over night.

Chicago, Ill., Jan. 22.—Final tests to determine whether the deaths of Col. Thomas Swope, the Kansas City millionaire philanthropist, and his nephew, Chrisman Swope, were due to poison, practically were completed yesterday.

Dr. Victor C. Vaughan, dean of the medical department of the University of Michigan, and widely known as an authority on poisons, began checking up the results found by Prof. Walter S. Haines and Dr. Ludwig Hektoen.

This is taken to mean that poison has been found and that the prosecution is employing Dr. Vaughan to go over the analysis as a precaution against any possible mistake.

With the sudden departure from Chicago of John H. Atwood, attorney for the estate of Colonel Swope, came confirmation of the report that examination of the stomach of the Kansas City multi-millionaire had disclosed startling features in connection with his mysterious death.

Mr. Atwood would not say whether the microscopic and chemical analysis by Chicago scientists showed poison to be the cause of death. He hurried to Kansas City in response to a telegram which he had answered immediately on its receipt.

EIFFEL TOWER MAY COLLAPSE

Flood in River Seine Threatens Great Catastrophe.

Paris, Jan. 22.—The flood of the Seine threatens to assume the proportions of a catastrophe.

The water at 2 o'clock had risen a foot since morning and the foundations of many buildings, notably the Eiffel tower have been infiltered and the structures are in danger of collapsing.

SCARLET FEVER CASES AT ARTHUR

Arthur, Jan. 22. — Arthur Martin, a 20-year-old young man of this city, is ill with scarlet fever, and there are several cases in the vicinity east of town, school in one district, the Shaw, having been closed on account of the contagion.

TO SAVE OFFICIAL $173,000 LOSS

Washington, Jan. 22.—A bill to relieve William Boldenwick, assistant treasurer of the United States at Chicago from responsibility for the loss of $173,000 stolen from his office, was passed.

This action followed an extended discussion wherein Democrats criticised the treasury department for failing to prosecute for recovery of this money Boutell of Illinois, explained that Boldenweck personally expended $5,000 in an effort to run down the culprit, and that had any prosecution been begun it would have been without sufficient evidence to convict, and would have resulted in giving the guilty persons knowledge of testimony in the hands of the secret service.

SIX HURT IN BIG FOUR SMASHUP

Cincinnati, Jan 22.—Six persons were hurt, three seriously, when a passenger train on the Big Four was derailed two miles west of the city today. The injured include five trainmen and one passenger, the latter being only slightly hurt.

ILLINOIS HIGH PRICE PROBE

State Senator Says He Will Next Tuesday Ask Legislative Inquiry.

Chicago, Jan. 22.—The revolt against high prices of food took tangible form here today when W. T. Apmadoc, state senator, announced that he would move for a legislative inquiry into the subject at the opening of the session Tuesday.

92,000 JOIN.

Pittsburg, Jan. 22. — The meat boycott by consumers that is spreading over the country, has a firm foothold here.

Petitions have been spread broadcast pledging abstinence from meat for thirty days, beginning next Tuesday. Hundreds of thousands are signing, and the Iron City Trades council, which has 92,000 members, is waiting the word from leaders before putting into effect resolutions adopted last night binding the members to join the boycott.

From all towns in western Pennsylvania, eastern Ohio and West Virginia come reports of like crusades.

BUTCHERS GLAD.

Just before closing hour last night butchers who have stalls in the Diamond market, the central market house here, held a meeting to discuss the outcome of the threatened boycott. The butchers were of one opinion in welcoming a strict boycott, in the hope that it would force downward the price of meat on the hoof.

STOCKMEN ARE ALARMED.

Denver, Jan. 22. — The growing movement to boycott meat has aroused stockmen of the west to a protest that the effect of the boycott will injure the stockmen rather than the packers.

Last night directors of the Western Stock Show association, composed of 500 western stockmen and business men interested in live stock production, adopted resolutions condemning the movement as calculated to discourage an increased production of meat animals.

"The present prices of meats are caused by the increased demand due to the growing population of the country," the resolutions read, "and the low prices that have heretofore prevailed are responsible for the failure of the producer to keep pace with the increase in population. With the increase of our population it is the duty of every patriotic citizen to encourage agriculture in every possible way. We assert that present prices for meats are not unduly high as compared with the advance in price on all food products."

M'KINLEY AGAIN IS CHAIRMAN

Stormy Session of Republican Committee.

Washington, Jan. 22.—Adherents of Speaker Cannon dominated the meeting of the Republican congressional committee last night in its regular election of officers. The session was stormy judging from sounds that floated through the transom of a banquet hall in a downtown hotel, where the meeting was held, at the completion of a modest dinner.

The officers who will direct the coming congressional campaigns are as follows:

Chairman—Representative William B. McKinley, of Illinois.

Vice Chairman—Representative James A. Tawney, of Minnesota.

Secretary—Representative Henry C. Loudenslager, of New Jersey.

Treasurer—Charles G. Dawes, of Chicago.

Assistant Secretary—Colonel Henry Casson.

Assistant Treasurer—John C. Eversman.

Auditor—W. J. Browning.

Literary Director—Francis Curtis.

So far as could be ascertained, none of the insurgent Republicans was invited to be present. Some of these are pointing out the significance of the election and declaring it is an attempt to give the speaker added power in swaying the elections in districts represented by them.

SAME REPLY AS RUSSIA-JAPAN

Paris, Jan. 22.—After exchanges between the two cabinets, both France and Great Britain have decided to conform their answers to Secretary Knox's Manchurian proposition to those of Russia and Japan.

The two latter countries have declined the proposal for the neutralization of the Manchurian railways.

BUILDING FALLS, DOZEN ARE KILLED

Charleroi, Belgium, Jan. 22.—Twelve men were killed and a score of others injured today by the collapse of a building in the course of construction here.

EARTHQUAKE SHOCKS RECORDED

St. Louis, Jan. 22.—The Seismograph of the St. Louis university registered an earthquake which began 3.03:18 this morning and lasted until 3:45:36. There were four vibrations to the minute. The movement was directly from the west with traces from the south. The estimated distance from St. Louis was 6.330 miles.

ICELAND SHAKEN.

Seydisfjord, Iceland, Jan. 22.—Three severe earthquake shocks were felt here at 7:45 this morning. Tremors were felt elsewhere in Iceland, but so far as reported no damage was done.

PROBABLY IN SOUTH.

Cambridge, Mass., Jan. 22.—A severe earthquake was recorded at the Harvard Seismograph Station early today. The shocks began at 3:55 a. m. and ended about 7 a. m. The disturbance appeared to be south, probably in southern Mexico or Central America.

MINERS ROW OVER COUNT

Lewis Charged With Wrongly Interpreting the Constitution.

Indianapolis, Jan. 22.—The tellers of the balloting in the election of international officers of the United Mine Workers of America were ordered by President Lewis in convention today to read the vote by local unions, because of the protests of his opponents that many unions had cast more votes than their membership authorized.

LEWIS DENOUNCED.

John H. Walker, president-elect of the Illinois district, declared that the convention had no opportunity to act on the report of the tellers; that the administration, despite all precedent, had interpreted the constitution to confer supreme authority on the tellers.

Green supported Walker's stand.

President Lewis replied that the constitution plainly authorized his ruling, charged Green with maliciously impeding the proceedings, and ordered him to his seat.

The anti-Lewis factions shouted to Green, "Stand on your rights!"

"DISTURBERS" ORDERED OUT.

Lewis called on the sergeant-at-arms to take the "disturbers" out of the hall if they refused to obey the gavel.

Replying to a question Lewis said that the discovery of fraudulent votes would not invalidate the election, that "only the fraudulent votes would be thrown out."

Lewis then announced that he had instructed the tellers to read the vote of every local union in all the districts.

The reading was interrupted by a motion to print the report.

ALMOST RIOT.

Instead of continuing the reading of the report which provoked almost a riot, Lewis ordered President Feehan of the Pittsburg district from the hall.

Hundreds of delegates arose to oppose the approach of the sergeants-at-arms, but Lewis at last restored order, and a motion to print carried when the president had agreed to permit the validity of the vote of any local union to be questioned after a printed report was distributed among the delegates.

PASS STATE MINE EXAMINATIONS

Springfield, Jan. 22.—The following central Illinois candidates were successful in the mine examination held at Springfield Jan. 17:

Mine managers, second class—Charles Dollins, Shelbyville.

Mine Examiners—John McManus, Assumption, John Bednar, Staunton; William Adams, Staunton; William H Payne, Decatur.

BOMB THROWING CHARGE FAILED

Chicago, Jan. 22.—The jury today acquitted Vincent Altman, who was tried on the charge of having exploded the bomb that partly destroyed the central telephone exchange June 27.

ASK VETO PARDON TO STENSLAND

Chicago, Jan. 22.—The United Polish Republican clubs appealed to Governor Deneen to veto the pardon board's parole of Stensland.

A resolution adopted declares Stensland is not sufficiently punished.

Springfield, Ill., Jan. 22.—Secretary Shively of the state board of pardons stated today that owing to the work necessary in making out the papers for the parole of Paul O. Stensland and Henry W. Hering, former Chicago bankers, and the fact that no work is done at the penitentiary on Sunday, they would not be released until next Monday.

$62,000,000 MERGER IS OPPOSED

Chicago, Jan. 22.—Clarence H. Venner of New York brought suit today to enjoin the proposed merger of several south side street railways involving $62,000,000. J. Pierpont Morgan and other New York and Chicago capitalists are made defendants.

Venner alleges that the scheme is contrary to law and in violation of his rights as a stockholder

TO PROSECUTE BEEF TRUST

This Announced as Purpose of the Federal Government.

Washington, Jan 22.—The "beef trust" socalled is to be prosecuted by the national government. The department of justice evidently believes its existence is a leading factor in maintaining the present high prices of meats.

The department's action followed an investigation conducted by its special agents for months. Initial proceedings will begin before the grand jury at Chicago probably next week, and may contemplate both civil and criminal actions.

SWIFT, MORRIS AND ARMOUR.

The concerns mentioned in connection with the matter include the Swift, Morris and Armour companies, all of whom, it is said, are interested in the National Packing company. The three first named are commonly represented to control the national corporation for their common benefit.

READY FOR GRAND JURY.

Washington, Jan. 22.—Active preparations are now under way for the presentation to the grand jury at Chicago of the government's case against the beef packing concerns whose alleged practices, believed to be in restraint of trade and possibly a factor in the high price of meat, have been under investigation.

The administration expects to secure a number of indictments.

UNIONIST TIDE FLOWS STRONGER

Liberals Say the Country Voters Are Overawed.

London, Jan. 22.—The results of yesterday's balloting for members of parliament thus far available show that the Unionist tide flowed even stronger than on the two preceding days.

The total Unionist vote was increased to 221 and the Government total to 260.

The Tories are slowly forcing the radicals backward. There is hardly a question that the Irish will hold a whip hand over Premier Asquith in parliament on its full home rule and other issues.

The Unionists steadily gained on the popular vote almost throughout England and to a much less extent in Scotland and Wales.

TARIFF REFORM RESULT.

The Unionists claim the result of the victory will be tariff reform. The Liberals declare the feudal state of the counties is responsible for the conservative gains, and charges the triumvirate, landlords, church and public with over-aweing and intimidating their dependents' followers.

RIOTING.

Serious rioting occurred last night at High Wycombe Buckinghamshire. A crowd sacked a "dump" show, where foreign imports were being displayed as electoral object lessons. They piled the contents of the "dump" in the roadway and burned them and smashed all of the windows of the conservative club. Many were arrested.

ADMIT GRAFT IN PITTSBURG

Pittsburg, Jan. 22.—President E. H. Jennings and former Vice President Frank A. Griffith of the Columbia National bank turned state's evidence at the hearing of the council graft cases yesterday, giving District Attorney Blakeley what he declares is excellent evidence on which to carry forward prosecutions.

As a result of the hearing before Alderman James V. McMasters, Max G. Leslie, county delinquent tax collector, was held on charges of perjury and conspiracy and soliciting a bribe, and Frank F. Nicola, a millionaire business man, and Charles Stewart, a former member of the finance committee of the council, were held on charges of soliciting bribes. Nicola and Stewart were held under $10,000 bail each, while Leslie's bail was fixed at $15,000.

WEATHER FORECAST.

Chicago, Jan 22. Weather forecast for the next thirty-six hours for Illinois:

Fair tonight and Sunday; rising temperature Sunday and in the northwest tonight.

The Weather Map.

Canadian Northwest—Generally clear; warmer; 10 to 40 above.

Northwest—Generally clear; rising temperature; 2 to 36 above.

West and Southwest—Generally clear; 2 below to 32 above.

Ohio Valley—Cloudy; 18 to 22 above. Snow general.

Local Observations.

The following is the range of temperatures as recorded by Prof. J. H. Coonradt, United States weather observer

7 a. m. 13
Noon 24
Highest Friday 24
Lowest Saturday 13
Sun rises (Standard time) 7 10
Sun sets 5 03
