PAVED ROAD THIS YEAR

Center Road to be Paved Soon; Chicago Avenue and Dundee Roads Follow, Says Busse

If all the people of Barrington, Palatine, Wheeling, Schaumburg, Elk Grove and Maine townships knew all the facts about that proposed concrete road parallel with the C. & N. W. R. R. from Park Ridge to Barrington, they would all be for and none against it.

It will not cost the taxpayers of the townships benefited 20 cents on the \$100 valuation to secure the right-of-way and grade the proposed road parallel to the C. & N. W. R. R.

Hon. A. F. Volz, who is wide-awake for the interests of his constituents, and being on the Good Roads committee in the legislature and influential in that body, wrote the editor May 6 that the state has a good bill on the Center Road—on the town line between Wheeling and Elk Grove from Rand Road to Engleking corners, thence north to Arlington Heights village limits—and the contract will be let soon. Hon. Busse tells us that it will be built this year. That is why they are not spending any more money on it.

We heard Mr. Busse, at a big Good Roads meeting two years ago, promise in behalf of the County Board, that every city and village in Cook County should be connected with Chicago and each other by good hard roads—concrete, asphalt-concrete, or brick—which ever is best for the money. He remonstrates that fact now. It takes more time and money to do this work since the war than before, but we believe that within two years Chicago Avenue will be connected to Palatine, Dundee Road will be finished from Wheeling to Deer Grove and Barrington. Lake County will extend the concrete Rand Road to McHenry and Milwaukee avenue from Wheeling to the Wisconsin state line. It increases the value of every farm \$25 an acre to have a concrete road adjacent.

HOW ABOUT STATE ROAD?

Mr. Editor—I have seen you stuck in the mud with your famous Dodge Car going toward Itasca, on the old State Road between the Thieman farms and Henry Schwartz's place, four times during the past year. We have often seen items in your papers praising the Elk Grove roads in the past, but don't you think that piece of mud road is a disgrace to Elk Grove?

Yes! My friend, that is indeed an awful road. They might at least scrape the mud off the pike and get down to solid earth. Those pikes are all too narrow. We are informed on reliable authority that the Cook County Board has appropriated over \$150,000.00 to furnish the best road known, asphalt-concrete and they plan to connect the Higgins road with Arlington Heights. So you see Elk Grove should make special efforts to maintain her good reputation for the best highways in this part of the country.

WHAT TO DO WITH ANARCHISTS

The American people have already lost three presidents by assassination. A plot has just been revealed, charging a group of I. W. W. men with making all arrangements to kill President Wilson. Plots against the chief executive are only one item in a vast program of revolutionary action.

Through the way they conducted a nation-wide program for destruction of property. These people have declared war against the existing social order. Many of them will never rest quiet until they have perpetrated some deed of horror. What shall be done with these lurking enemies, whose minds are filled with these black thoughts?

The obvious answer is to establish social justice everywhere, so that no sound mind would find less protection toward violent action. This is a good reply, yet it does not solve the whole problem.

If the government and every employer should go to the very limit in humanitarian advance, and do everything possible in the most unselfish and generous way to improve the condition of the working masses, there would still be social unrest. It would not be so general and menacing, but there would still be fanatical minds bent on destruction of society.

The exclusion of anarchists from this country is desirable. But even that does not solve the problem. It leaves them to stir up Europe, and create centers of turmoil that spread over the whole world. The time has come when the utterances of these people will have to be watched more carefully. The man who throws fire brands around among loose combustibles is quickly jailed. The man whose passionate words are a clear incitement to deeds of crime will have to confront the courts. They will have to analyze and decide each case on its merits. Too much fire-brand talk has been permitted.

Please examine the date on the yellow label of your paper and see if you are behind on your subscription. If there is any error, let us know and we will cheerfully correct it. All subscriptions should be paid in advance direct to the publisher, H. C. Padlock. OUR SPECIAL CLUB RATES

Will save you money on all papers and magazines—Chicago Tribune, Journal, Herald Examiner, Daily News, Abendpost or Staats Zeitung. Study our Special Club rates.

SCISSORINCUTS

Partly Original but Mostly Stolen

Some people favor deporting the bomb throwers, but in most places the cemetery is much handier than the steamship wharf.

If the bomb men are not very careful, they'll soon feel the effects of the spade and not as the result of working gardening either. Some of the people who wouldn't contribute to the Liberty loan, to the Liberty.

Bring the soldiers back, are still living in luxurious homes which the soldiers risked their lives to protect. So far the fellows who went to war are able to attract the interest of the girls, without having to pay any luxury tax on neckties costing over \$2.00.

The government says cost of living has fallen 5 per cent, but an examination of the May 1 bills with the aid of a powerful microscope has failed to detect the same.

There is a widespread idea that a free country is a place where everyone is free to commit any old kind of crime.

The American people nowadays are giving a less than hearty welcome to the oppressed of all nations who come over here loaded up with bombs in their inside pockets.

"All rise and sing hymn No. 528 in the Holschevistic hymn book—

Loaf for the night is coming, Loaf through the morning hours; Loaf while the dew is sparkling, Loaf 'mid the springing flowers; Loaf when the day grows brighter, Loaf in the glowing sun; Loaf for the night is coming, When man's loaf is done."

Physicians are to have half holidays in some places and the public is kindly requested not to be taken sick on those occasions.

Prominent among the requisitem tools are a plentiful supply of rocks to throw at your neighbor's hens. Many men observe Clean Up Week by cleaning out from the scene of action.

The prevailing theory among police officers of repressing crime, is to pass suspicious characters on to the next town for them to commit crimes there.

The girls who commiserated for the sake of the soldiers last year, now have some money to buy clothes with which to captivate them.

The people who might have come across for the Liberty Loan but didn't, would find difficulty if they attempted to borrow any such large sum as \$1.50 from anyone.

It is said that those discontented fellows, the ministers, after spending 15 years educating themselves, are going to demand as much pay as the grammar school graduate, who has learned to drive a nail or lay a brick.

Many of the people who find fault because school teachers are scarce, are the same ones who never take the least pains to include them in the social life of the community and help them get acquainted.

Instead of ordering a ship to come to take him home, President Wilson would have shown better judgment to have sent for his summer clothes.

Cheer up, it is reported that day before yesterday the peace conference agreed on two commas and one semicolon.

The Kaiser, placed on trial, will give a thrilling and heart moving account of how 130,000,000 Teutons were attacked by 7,000,000 Belgians and compelled to fight against their will to save themselves.

On an advertising basis, if a store buyer had a chance to pick up a large lot at a reduced price, he would have confidence to go ahead. He could buy very largely in excess of the usual demand, depending upon advertising to bring in a lot of customers who would buy in advance of actual needs. The first result of advertising is to make it possible for merchants to do business in a bigger way, to buy in larger lots at lower prices, to take advantage of special opportunities and give their customers the benefit.

The publisher is making a desperate effort to keep up the quality and size, and hold down the price of this paper; but it is a hard job. He has to work 16 to 18 hours a day, from 5 a. m. to 10 p. m., daily except Sunday as the cost of all material and labor is constantly going higher, so we must cut off all subscribers who do not pay up promptly. If you miss your home paper after this you know the reason. We can't afford to give

Magnificent Royal Residence. The most notable architectural feature of Buckingham palace is the grand entrance of white marble, which leads to the state apartments. These magnificent suites are filled with priceless objects of art and historical interest presented to the British monarchs by the royal visitors of many generations.

Must Be Progressive. The moral law of the universe is progress. Every generation that passes idly over the earth without adding to that progress remains inscribed upon the register of humanity, and the succeeding generation tramples its ashes as dust—Muzzini.

The Herald-Enterprise-Register job printing department is the best equipped all-around plant in the suburban territory of Chicago and few shops equal it even in the big city. We are making frequent additions to equipment and the latest is a large punch machine which fits us to do all kinds of loose leaf work as well as the lines we have handled so expeditiously heretofore. No job of printing is too big or too small for us.

ALL-AMERICAN EXPOSITION

Old Fashioned Carnival and Exhibition of Handiwork from every Nation of World

Many a country has been condemned by people of the United States in the past 30 years, because its only representatives with whom they have come in contact have been of a low grade of literacy. All Italy has been a country of ditch diggers, all Greece a country of fruit vendors and all China a country of laundry men because a few early arrivals from those countries have been of that class. Half a century ago Ireland was considered by Americans as a country of imbeciles and pick yielders, an idea which has long since been relegated to the dump heap where it always belonged.

The war has already done a great deal to correct these ideas, and the men who have fought side by side with the soldiers of other nations will bring home a new appreciation of the excellent qualities of the people of other countries.

Next month, June 7 to 22, there will be held at the Coliseum in Chicago, an All-American Exposition, which in addition to being an old fashioned carnival, will attempt to broaden further the understanding and appreciation of the foreign and native born citizens of this community. It hopes to do this by bringing before the public the names and achievements of American citizens of foreign blood, from the days of Washington to the present, and their contributions to the welfare and advancement of this country; it hopes to show what the artists, scientists and statesmen of other lands have achieved, and to bring out the good characteristics of foreign peoples as strongly as their bad points have been emphasized in the past.

Even if the All-American Exposition had but this single aim it would be worth a visit, but it has in addition the aim of entertaining in the good old fashioned carnival way at small cost, and the aim of bringing together for exhibition and sale rare pieces of handicraft from every nation in the world. These ideas come first, and if when this most colorful affair is over there is money left in the treasury it will be used, with the approval of the Department of the Interior at Washington, to establish an Americanization Institute in Chicago whose permanent work will be to blend all citizens into a broader Americanism.

The whole undertaking is being backed by the Chicago Association of Commerce and a large committee of Chicago's most prominent men and women. Tickets are already on sale at the pre-opening price of 25 cents at the Exposition Headquarters, room 741 First National Bank Building, Chicago.

The days of the "Wop" and the "Ginney" are almost over. With such efforts as the All-American Exposition it will not be long before they have disappeared along with the old Irish misconception into history, to be revived only by the comedy man in their places we shall have Americans, whose Italian, Greek or Russian blood is remembered only for its excellent qualities, and whose contributions to the welfare of America are known and appreciated.

The All-American Exposition, which was started as a local affair by a group of Chicago men and women a few months ago, has assumed such proportions with the visit of government officials that it promises to become of national interest, and has therefore been postponed until September to allow time to perfect the larger plans.

The postponement was suggested by a representative of the Department of the Interior, who visited Chicago last week to inspect the Exposition plans and to confer concerning government exhibits to be incorporated. He declared that Chicago had conceived an idea that shouldn't be confined to Chicago, and recommended that the affair be increased in size and scope, and be sent all over the country after it is used here.

Tickets for the Exposition which have been on sale since April will be good at the new date, August 30 to September 15 inclusive, and the ticket sale will continue at the pre-opening price of 25 cents. Work of the committees will go on as before, with headquarters at 741 First National Bank Building. William Tudor Ap- Madoc is executive chairman of the committees and M. A. Taylor treasurer. John J. Arnold heads the citizens committee which includes men and women prominent in art, civic and industrial interests in and about Chicago.

The All-American Exposition will show the achievements of American citizens of foreign birth, and its purpose is to promote a better understanding between all elements of American citizenship. With the proceeds a permanent All-American Institute will be founded in Chicago.

If you want colored work, If you want business cards, If you want neat bill heads, If you want tasty letter heads, If you want nice visiting cards, If you want wedding invitations, If you want any kind of job printing, Leave your orders with H. C. Padlock & Sons, Arlington Heights or Palatine and have them executed in the finest manner and in the shortest time possible. Prices always most reasonable.

Chicago Daily Tribune and this paper, both one year for only \$6.25.

TAKEN ON EASTER DAY

Jesus said, "Suffer the little children, and forbid them not, to come unto me: for so saith my Father, the kingdom of heaven."

In memory of one of those little ones, who has gone to Jesus to claim this promise.

Jeannette Elizabeth Wiegand was born in the Presbyterian parsonage Dec. 29, 1911. At the age of 3 years she began attending the Sabbath school and maintained a perfect record of attendance. She was a most promising pupil in the primary department of the Sabbath School, also of the public school and a favorite among her little playmates. After a short illness of one week duration, not known to be of a serious nature until the last two days, she passed away at 4:00 o'clock A. M., Easter Sunday, a victim of diphtheria. The funeral service was held in God's great out-doors in front of the parsonage, Monday, April 21 at 10:30 A. M. Rev. Mr. Barr, of Chicago brought a most inspiring and comforting message to the goodly number assembled. In a beautiful way he pictured death as a period of glorious transformation, in the life of a child of God.

In the special programs of our Sabbath School, Jeannette always held a prominent part. In the singing especially she was a leader among the little people. She was prepared to take part in the Easter exercises which were to be held the evening of the day when she passed from time to eternity, there to sing her Easter praises.

Secretary, Wheeling Presbyterian Sabbath School.

Cook County Teachers Meeting

The May meeting of the Cook County Teachers' Association will be held in Fullerton Hall, Art Institute, Saturday, May 10, 10:30 A. M. Ten minute talks by—

E. L. Boyer, "Memory Gems in the Grades."

John W. Costello, "The Need of a Nationalized Educational System."

A. B. Morris, "Opportunities of the Smaller Schools."

Miss Eva Smedley, "A Year of Community Work in Evanston."

Miss Minnie E. Whitman, "Education in Our Mountain Region."

Edward J. Tobin, Co. Supt.

LUXURY WAR TAXES

The new "luxury taxes" that went into effect this month, are causing some complaint. It must be remembered that the tax, in the case of 20 classes of articles under this category, is not for the whole price of the article. It is merely on the excess above a certain sum. When a woman buys a \$25.00 hat, she pays the 10 per cent only on \$10.00, which is the excess over \$15.00 where the tax begins to apply. The woman who has been accustomed to buying a \$25.00 hat will not feel it keenly to pay \$26.00.

It is rather surprising that the luxury tax idea was never applied more consistently before. The taxes now levied seem likely to remain in force some time. Those who feel they have an easy remedy by living simply and accepting the kind of goods that appeal to the great run of the people. The taxes on medicinal preparations will be regarded by many as placed upon a real necessity. But the taxes on high priced clothing and house furnishings seem to hit few things that can be considered essential.

Men and boys for instance have to pay a tax on silk stockings costing in excess of \$1.00 a pair. Is there anyone who really needs to pay more than \$1.00 for a stocking? If so, he probably has income enough so that he can pay a few cents additional to the government to help meet the enormous burden of war debt. And so it goes all through the list.

These taxes will have some effect to cut down expenditure and to work for simple living. So they may work indirectly to increase thrift and promote greater additions to the capital resources of the country.

WILL HEIGHTS "GO OVER?"

Citizens of Wheeling Township Asked to Rally to Support of Victory Loan

Arlington Heights, May 1, 1919. To All Citizens of Wheeling Township Dear Sir:—One-half of the time allotted for the Victory Loan has passed and of our quota of \$100,000 but one-third has so far been subscribed. This district has never yet failed to respond to its country's call and it must not at this last opportunity.

No apology need be offered in urging you to buy these bonds, for just as sure as the government endures, it will return your investment in four years, and pay you for it at a good rate (4 1/2%) of interest each year.

No better or safer investment could be made, and for the glory of our country, our state, our district and our community we should not lag in making "Over the Top" with our full quota. To the end that past obligations may be met and our heroic army returned to us in honor.

VICTORY has been WON, crown it with OVER-SUBSCRIBING this loan. Yours truly,

Victory Loan Loan Committee. P. S. Don't wait to be asked. Call at headquarters and place your subscription.

WHEAT GOOD IN NEBRASKA

Seward, Neb., May 6, 1919.

Mr. H. C. Padlock, Arlington Heights Dear Sir:—Inclosed find \$2.00 for another year's subscription to the Du Page Co. Register. We are having cold weather yet and a lot of rain, it rains almost every day. Nobody thinks about corn planting yet, which would be going on by this time in a normal year. Wheat looks fine and the prospects for a good wheat crop could not be better.

Yours truly, Fred Mensing.

HARTMAN-GREVE WEDDINGS

SUNDAY occurred the wedding of Edwin Greve, son of Aug. Greve and Miss Meta Hartman, eldest daughter of Mr. and Mrs. Fred Hartman. They were united in wedlock at 2 o'clock at the Redenburg church, Rev. Seils officiating. The bride was beautifully gowned in white crepe de chine, carrying roses. The groom wore the conventional black. The bridesmaids were Sarah Wilke and Minnie Hartman, Groomsmen, Albert Greve and Henry Hartman. After the services, a bountiful spread was enjoyed at the Hartman home. About 30 families were present. The evening was spent dancing and cards. The happy couple were recipients of many useful presents for their home on the Greve farm. Herman Hartman has been swamped with orders for setting eggs. He says it pays to carry pure bred stock and advertise in the Padlock papers.

SCHAUMBURG

H. W. Fenz moved his household effects last week to the John Fenz home.

Mr. and Mrs. H. E. Oltendorf were Bartlett callers Sunday, helping son, Louis, celebrate his birthday.

Mr. and Mrs. Wm. Heim have rented the Wm. Fenz house and moved their furniture and took possession, Monday.

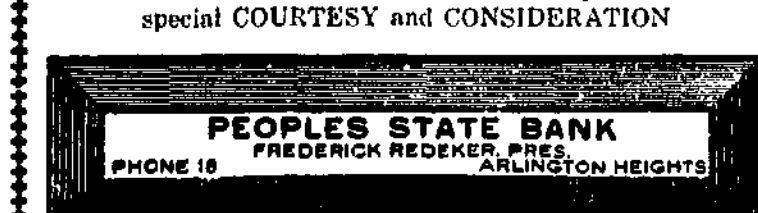

F. A. Lemke and F. W. Pfingsten, two of our volunteer workers, imagine some one had wished the "reverse" on their success.

The Liberty Loan is moving at a snail's pace. F. W. Botterman says it is still in low speed, but he hopes to get it in high before the end of the week. Chas. E. Hoffman took possession of the H. W. Fenz establishment last week. He has secured the services of Ed. Diekmann, who has had a dozen years store experience and will be able to accommodate you either in "Hoch-Deutsch," or "Platt-Deutsch." He arrived with his family Sunday. His furniture was brought from Chicago, Tuesday. They will occupy the rooms annexed to the store.

IT SAVES TIME — IT SAVES WORRY and gives you a feeling of protection against possible misfortune. No matter how independent you are today there is no telling in what position you will be to-morrow.
